When druggists, lawyers and doctors, and even preachers occasionally, besides many others of various professions too numerous to mention, manifest a special interest in any one article we very naturally conclude it has some healthy bearing on their lives, or they would scarcely lift their voices with one accord to extol its virtues and place it before those going through life burdened with rheumatism. Filled with rapture over immediate relief, the sufferer ever after refers to St. Jacobs Oil, the great German Remedy, as the most surprisingly efficacious of all remedial agents. We recently observed in a New Jersey exchange the following item in support of the above: Mr. Isaac Correy, manager Salem, N.J., glass works, remarks: I am pleased to say that I have tried the Great Remedy, St. Jacobs Oil, for rheumatism with excellent results; other members of my family have also been greatly benefited by it.

FRIDAY.....MAY 26, 1933

STATE POLITICS.

Probably Reno is the freest place in the State from politics at present. With the exception of a few office-seekers there is next to no talk at all here about the coming campaign. A trip through eastern and southern Nevada, however, would show that the fires are smoldering there and that the fight will not be devoid of interest. Private quarrels and patriotism, about equally mixed, decide who is to be supported and who opposed by the average voter.

Judging by the talk Governor Kinkead would be renominated if the convention were held now, but there may be a reaction against him. Humboldt, Elko and Lander county are undoubtedly for him now. Daggett is not talked of much, as he is holding back to see about the Sandwich Island business or waiting for Mackay, or something. He found it so hard to get the floor and to answer letters while in Congress that he lost ground very fast. It is said that during his two years' term he never addressed the chair once. He would run better west than in eastern Nevada.

For Congress the belief is, in the same counties, that Woodburn would carry more than the party vote. He has always been held particularly high in Elko county. Powning is about the only other man spoken of and few want him in Congress, while almost every one would be glad to see him in the State Senate. Bishop has strength and may allow his name to be used, but he has many active enemies. Hallock will carry a strong backing for a renomination.

Murphy declines to serve again, and Boardman of Washoe is a strong man to succeed him. He is believed to be sure of an election if nominated.

T. D. Edwards of Carson made many friends in Eastern Nevada while in the Senate, and would run well for any thing.

Judge Leonard is strong in his old home and all over the east.

Jerry Moore could have been Lieutenant Governor, but he is said to be putting up a new party.

The Democracy express a strong admiration for Senator Schooling, and many want to see him among the names before the Convention. Jewett Adams and General Hagerman will be there with many particular friends. It is believed by many knowing ones that Captain Matt Canavan is the strong man. If he has Storey's delegation it will be a quarter of the convention, and he need only double it to have a majority.

Cassidy is the fond hope of the Democracy. He is the tower of strength that they believe the powers of light cannot prevail against. No one seems inclined to contest the nomination with him. The balance of the ticket is anybody's, as yet.

FOREIGN TELEGRAMS.

English Items.

LONDON, May 26.

In the Commons, on Sir Wilfrid Lawson (Radical) protesting against a liberal government upholding the integrity of the Ottoman Empire, and asking a pledge that force shall not be employed in Egypt, Gladstone stated that it was impossible to give such a pledge; but there is nothing at present to make it likely that force will be necessary.

Albert Young, arrested for writing a letter threatening the life of Her Majesty, was sentenced to 10 years' penal servitude.

It is reported that the Government has received telegrams stating that Arabi Bey is firmly resolved not to submit.

Rewards for Arctic Victims.

LONDON, May 26.

Oscar Dickson has sent a circular to the Magistrate of Tromsøe, Hammerfest and Vardo offering a reward of £200 to whoever first brings assistance to Leigh Smith; £168 to whoever forwards a report in writing of the crew of the Eira of later date than November 1, 1881, and £25 for the first information by telegraph to Dickson in regard to the picking up of any of the Eira's crew or for letters from them of a later date than November 1.

ON For the Arctic.

NEW YORK, May 26.

A Herald Washington special says: Lieutenant Powell left here to-day for San Francisco, whence he will sail for Point Barron. Two competent men from the Signal Service Bureau will accompany him. In order to reach Point Barron Lieutenant Powell will have to leave San Francisco about June 1st, as it requires two months for a sailing vessel to make the voyage up there. As the Government has not supplied a steamer, he has to rely upon a sailing vessel, and unless she can get away at once the passage will be closed by ice before the ship reaches within anything like communicating distance with the station. No arrangements have been made for the relief of the party at Lady Franklin Bay. To-morrow Wm. M. Turner, who, with Mr. Nelson, made meteorological and other scientific observations in Alaska, leaves for Unga bay. He is sent out by the Smithsonian Institute and Signal Service Bureau, and is expected to remain in the northern region two or three years, during which time he is to make meteorological observations and investigate all that is possible concerning the mineral, vegetable and animal resources of that region. Turner goes from here direct to Montreal, where he will take a Put-in-Bay conveyance for Argolette on the northeast coast of Labrador. Then he will connect with a Hudson Bay company steamer, coming from England, and go on her to Unga Bay. His headquarters will be one of the Hudson Bay company's stations or posts, in latitude 60° north.

Fighting for an Office.

WASHINGTON, May 26.

The long squabble over the Postmastership at Tombstone, Arizona, was settled finally to-day by commissioning T. B. Brooks, as Postmaster. John P. Clum, present incumbent, was a strong candidate for reappointment. He was nominated by the President and confirmed by the Senate some time since, but his commission was held up, and in the meantime Brooks received the nomination and was also confirmed and his commission withheld. For several months there has been a hotly contested fight over the matter by friends of both parties, in which revolvers and other implements of war freely figured. Clum, besides being Postmaster, is Mayor of Tombstone. More trouble is presently expected.

Fast Mail Trains.

CHICAGO, May 26.

Postmaster-General Howe, now here, says the money to expedite mails, specially appropriated by Congress, will probably be used to increase speed. He is here to hasten the fast trains between New York and San Francisco. The chief question now is whether it shall leave New York in the morning or evening. Opinions differ on this point. The interests of New York and Chicago seem to clash regarding the time, which will probably result in both a morning and evening train. He also thinks there should be faster time between New England and the Southwestern States, with New Orleans or some other city as a distributing point. He expects hearty co-operation from the railroad officials.

Arson and Murder.

CHICAGO, May 26.

At Highbrook, a northern suburb, this morning, the house of a man named McCarthy was discovered to have been burned, and his body was found in the ashes. Indications point to murder. The object is supposed to have been money received recently from stock sales. Nobody knew of the affair until daylight, when the smoking ruins attracted attention and the charred remains were found. A posse of citizens are scouring the country around and every effort is being made to overtake the murderers.

The Grant Smelting Works Burned.

LEADVILLE, May 26.

Early this morning the Grant Company's smelting works were completely destroyed by fire. The origin of the fire is supposed to be an explosion in the furnace. The loss is estimated at between \$300,000 and \$400,000; insurance \$65,000. The works were the largest of the kind in the world. Over 300 men are thrown out of employment here and quite a number at Omaha, where the refining works of this company are located. The works will be rebuilt.

A Thieving Official Captured.

NEWARK, N. J., May 26.

Wm. A. Hall, the thieving Assistant Auditor, has been captured at Toronto. He spent three months at Prescott, where he kept two fast horses. He carried a large amount of his plunder in diamonds. He is said to have secured \$40,000.

An Excited Negro Mob.

NEW YORK, May 26.

Telegrams from Baton Rouge, La., say a reign of terror exists in St. Martin's parish over the lynching of Joseph E. Jenkins and Eugene Azar, a negro, on the 16th inst. Bands of

armed negroes are going about in St. Martinsville, swearing revenge, and a war of races is decided on. Sixteen of the lynchers have been arrested and are now in jail. The lynching of the two men was positively atrocious. Jenkins hands were not tied, and when he grasped the rope they broke both of his arms. His wife, who was among the spectators, earnestly begged for his life. He had, a week previous, waylaid his brother-in-law, Raphael Costello, near Brown bridge, and shot and killed him. Azar had been arrested some time previous for killing a young man; but at the inquest the killing appeared to be done in self-defense and he was let out on \$300 bail.

The Star Route Cases.

WASHINGTON, May 26.

The star route cases came up this morning. All the defendants were present except Peck. Chandler filed a motion to quash the old indictments upon the ground that the new indictments covered the same matter. Wilson, for defendants, stated that Dotson was ill, and asked for a delay until to-morrow. The Attorney-General wished it understood that it is the intention of the Government to see whether these men have been justly or unjustly accused, and to bring these cases promptly to an end. Wilson claimed that responsibility for the delay rested entirely with the Government. The cases went over until to-morrow.

A Professor Gets Married and Dies of Solenizing of the Brain.

ST. LOUIS, May 26.

Professor A. F. Bachman, formerly teacher in the public schools, grew rich in Nebraska and returned to St. Louis for a wife; made love to a chambermaid of a hotel, and was finally accepted after a lot of ridiculous extravagances; was married, and next day his wife disappeared. The professor was much agitated and got himself into all sorts of trouble on the street cars and elsewhere by molesting several ladies, and was sent to the insane asylum, where he died to-day. A post mortem showed softening of the brain.

A Slap at Arthur.

NEW YORK, May 26.

The Times says of the recent appointments: If the President imagines that to stand well with the country it is necessary to appear a suitor of "my policy" or champion of "my party," we think he has made a grievous blunder. If his policy is to consist in turning one set of men out of office and putting another in, merely to supply the demands of his personal adherents, he will show that the blunders of his predecessors who resented the Chief Magistracy by Vice-Presidential succession have yielded him neither instruction nor warning.

Chinese Passports.

WASHINGTON, May 26.

The Secretary of the Treasury has prepared circulars to collectors of customs, prescribing the form of the certificate to be delivered to Chinese laborers departing from this country, entitling them to return under the Act of May 6th, 1882. It is ordered that the certificates shall be printed on bank-note size paper, so as to prevent counterfeiting.

Denver and Chicago.

CHICAGO, May 26.

The last spike connecting Omaha and Denver by means of the East Chicago, Burlington and Quincy extension, was driven 15 miles east of Denver yesterday in the presence of a large number of officials and an army of workmen. Through freight trains have already begun running and passenger trains will be put on July first. The distance from Chicago to Denver is 1,044 miles.

A Government for Alaska.

WASHINGTON, May 26.

In the Senate to-day Butler said that immediately upon the disposal of the Japanese indemnity he would urge action upon the bill for a Territorial government for southeastern Alaska. As showing the urgency of prompt action, he sent to the Clerk's desk and had read sundry communications showing lawlessness among the miners of that section.

Distillers in Council.

CHICAGO, May 26.

Leading distillers of the country are in session at the Grand Pacific, trying to agree upon a scheme for reviving the Western Export Association; to fix a remunerative price for high wines, and prevent disastrous cutting of rates. The committee appointed for the purpose made a report this morning, which was discussed at length, and pending a vote upon its adoption the meeting adjourned.

WESTERN.

An Apache Indian Who Talks Sense.

FORT THOMAS, May 25.

Eskateschew, Chief of the Coyaters Apaches, visited Colonel Albert G. Beckett, of the Third Cavalry, commanding this post, and states that he wishes the Government to allow his people to go back and live at their old home in the White Mountains, where there is plenty of grass and water for stock-raising, and where they can farm. He complained that the sub-agency is unhealthy and the land unproductive, and that no water can be had there for farming purposes. All they desire, he says, is to be per-

mitted to go where they can make a livelihood, and if they are allowed to return they will not ask the Government for assistance of any kind, as they can support themselves. He also stated that he wished the military to protect them from the Americans, Mexicans and hostile Indians. Referring to the cause of the Chihuahuas outbreak, he said it was caused by Agent Tiffany not assisting them to make water ditches to irrigate their land. Two of the chiefs, Juh and Neliciz, went on two different occasions to Tiffany, begging for this assistance in cutting out ditches, and Tiffany would not reply or give them any satisfaction whatever. This chief stated that he represented 15 chiefs of different bands of Apaches who had sent him with this message, and that he spoke by authority.

A Suit for Big Money.

SAN FRANCISCO, May 25.

Ellen M. Colton, wife of D. D. Colton, deceased, has brought suit in the Superior Court against Leland Stanford, C. P. Huntington, Charles Crocker and Wells, Fargo & Co. The suit is instituted to set aside a certain agreement made on the 27th of August, 1870, whereby Mrs. Colton agreed to assign to defendants, as executrix of the deceased, certain stocks and bonds of several railroad and steamship corporations of the estimated value of \$1,722,713 75. It is alleged that the plaintiff made the assignment through a mistake as to the actual value of the bonds and stocks, and that the consideration for such assignment was that the defendants would cancel a promissory note for \$1,000,000 made by the deceased, and that they would pay certain other debts. The plaintiff asks for an accounting between the value of the stocks and bonds and judgment against the defendants for dividends and interest on the same now due the estate.

A Sacramento Suicide.

SACRAMENTO, May 26.

C. W. Rapp, wholesale and retail grocer, committed suicide by shooting himself. Heart disease and financial embarrassment contributed to the suicidal impulse.

BELL TONGUE SYRUP,
AN ACCIDENTAL DISCOVERY OF
An Inestimable Benefit to
Mankind.

UNCLE BEN JO'S
GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same as proper distance off. This herb, Uncle Ben Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part looks over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Ben Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Noto." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by OSBURN & SHOEMAKER, Reno, Nev.

1882. THE RENO GAZETTE

For 1882 will be a better paper than it has ever been before. It has more all the latest news dispatches, and is thus placed many hours ahead of any other paper. It is a weekly paper, and the policy of the proprietor to make the Gazette a first-class local paper, with full accounts of everything that occurs in Reno, or Washoe county, or the State of Nevada. The resources of the country are carefully studied and written up by able correspondents, and the Gazette has done as much as all the other papers combined in this respect.

THE WEEKLY GAZETTE

contains all the reading matter of the Daily, without its advertisements. It is an eight-page paper, with good plain letters and clean, white paper. It is increased in an extraordinary manner in the last six months, and is now growing rapidly. Its interesting matter, crisp editorials and late news make its popularity. By availing themselves of our club rates, the WEEKLY GAZETTE costs only half a dollar a year. It is given with the Bulletin, Chronicle, Examiner or Record-Union, which cost also two dollars and fifty cents, for three dollars; with Harper's publications, and the Argonaut for four dollars; and fifty cents a year, and with other papers in proportion.
